WELCOME
BACK TO
SCHOOL

Newsletter October, 2022

**DEAR NIS PARENTS,
WELCOME BACK!**

-We hope you have enjoyed a wonderful summer. We also hope you are relaxed, recharged and ready to start a new scholastic year.

-We are all so excited to have students back in our classrooms and hallways filling them with energy and enthusiasm for learning.

It is our mission to help every child feel welcomed, connected and part of our Nefertari family. Additionally, we strive to challenge each student to grow in his or her academic ability. At NIS, we have great teachers who spend hours planning and creating classroom activities to engage our students in learning.

-Our teachers utilize research-based practices and analyze academic data to determine current skill levels and to set goals for growth and improvement.

-We believe that all students should graduate from secondary school prepared for the demands of post-secondary education, meaningful careers and effective citizenship.

**TO ENSURE SUCCESS WE EXPECT OUR STUDENTS
TO ATTEND SCHOOL REGULARLY**

PREPARING FOR THE NEW SCHOLASTIC YEAR:

*All classes were renovated, new A.C units and more developed smart boards were installed, as well as the school courts ground has been changed.

TEACHERS PROFESSIONAL DEVELOPMENT

In Nefertari we believe that education is a learning cycle without an end. Continuing education helps teachers to improve their skills and become more professional at their work. Consequently this will encourage effective learning, guide the students through their studies and help them to develop and grow not only in specific subject matters but also in learning crucial life lessons, solving problems and communicative skills.

PREP. & SECONDARY

-Active learning strategies workshop

-In this approach (workshop), teachers realized that learning is not only about the content, but is also about the process. Active learning develops students' autonomy and their ability to learn.

-Active learning gives students greater involvement and control over their learning.

WHAT IS ACTIVE LEARNING?

Students are engaged in more activities than just listening.

They are involved in dialogue, debate, writing and problem solving as well as higher order thinking, e.g. analysis, synthesis, evaluation and creating.

THEY HAVE BECOME LIFELONG LEARNERS

PRIMARY STAGE

Teachers were given teacher training courses and workshops in the latest teaching techniques on the following:

- *21st century skills
- *Inquiry based learning (IBL)
- *Differentiation and Multiple intelligences
- *Active Learning

-These workshops focus on the implementation of the 21st century skills in lesson planning curriculum, class instruction and extracurricular activities in all school disciplines in the Primary stage. Active learning pulls students out of their comfort zone by creating an environment where risk taking is encouraged. As they get more comfortable sharing their thoughts, defending their conclusions and building on each other's ideas.
